### 2 BASIS OF PREPARATION

#### *Basis of measurement*

The interim condensed financial statements have been prepared under the historical cost basis except for the measurement at fair value of "available for sale investments".

#### *Statement of compliance*

The accompanying interim condensed financial statements for the three and twelve month periods ended 31 December 2015 ("the period") are prepared in accordance with IAS 34 – Interim Financial Reporting, as such these do not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Company's annual financial statements as at 31 December 2014.

The Company is required to distribute 10% of the net surplus from insurance operations to policyholders and the remaining 90% to be allocated to the shareholders of the Company in accordance with the Insurance Law and Implementation Regulations issued by the Saudi Arabian Monetary Agency ("SAMA"). Any deficit arising on insurance operations is transferred to the shareholders operations in full.

In management's opinion, the interim condensed financial statements reflect all adjustments (which include normal recurring adjustments) necessary to present fairly the results of operations for the interim periods presented. Certain comparative amounts have been reclassified to conform to the current period presentation. The interim results may not be indicative of the Company's annual results.

### 3 NEW STANDARDS, AMENDMENTS TO STANDARDS AND INTERPRETATIONS

The significant accounting policies adopted in the preparation of these interim condensed financial statements are consistent with those followed in the preparation of the Company's annual financial statements for the year ended 31 December 2014.

The Company has adopted the following new standards and amendments, which are effective for the Company's financial years starting 2015 and thereafter:

#### *Annual Improvements 2010-2012 and 2011-2013 Cycles*

Annual improvements to IFRS 2010-2012 and 2011-2013 cycle applicable for annual periods beginning on or after 1 July 2014. The IASB made amendments to a total of twelve standards, which included an amendment to IFRS 13 Fair Value Measurement. It clarifies in the Basis for Conclusions that short-term receivables and payables with no stated interest rates can be measured at invoice amounts when the effect of discounting is immaterial. This amendment to IFRS 13 has no impact on the Company.

AL ALAMIYA FOR COOPERATIVE INSURANCE COMPANY  
(A SAUDI JOINT STOCK COMPANY)

NOTES TO THE INTERIM CONDENSED FINANCIAL STATEMENTS  
(UNAUDITED) (continued)

For the period ended 31 December 2015

**3 NEW STANDARDS, AMENDMENTS TO STANDARDS AND INTERPRETATIONS (Continued)**

*Standards issued but not yet effective*

In addition to the above mentioned standards, the following standards and interpretations that are issued, but not yet effective, up to the date of issuance of the Company's financial statements are disclosed below. The Company intends to adopt these standards, if applicable, when they become effective. Further, the Company has chosen not to early adopt the amendments and revisions to the International Financial Reporting Standards which have been published and are mandatory for compliance for the Company with effect from future dates.

*IFRS 9 Financial Instruments*

IFRS 9, as issued, reflects the first phase of the IASB's work though the adoption date is subject to the recently issued Exposure Draft on the replacement of IAS 39 and applies to classification and measurement of financial assets and liabilities as defined in IAS 39. The standard was initially effective for annual periods beginning on or after 1 January 2013, but Amendments to IFRS 9 Mandatory Effective Date of IFRS 9 and Transition Disclosures, issued in December 2011, moved the mandatory effective date to 1 January 2015. However, on 19 November 2013, the IASB issued IFRS 9 Financial Instruments (Hedge Accounting and amendments to IFRS 9) amending IFRS 9 to include the new general hedge accounting model. In its February 2014 meeting, the IASB decided that IFRS 9 would be mandatorily effective for years ending on or after 31 December 2018. IASB is considering to defer the effective date of IFRS 9 for specified entities that issue contracts within the scope of IFRS 4 until the new insurance contracts standard is applied.

*Annual improvements to IFRSs 2012 – 2014*

Annual improvements to IFRSs 2012 – 2014 cycle applicable to annual period beginning on or after 1 January 2016.

*Disclosure initiative (Amendments to IAS 1)*

Amends IAS 1 Presentation of Financial Statements to address perceived impediments to preparers exercising their judgments in presenting the financial reports. It is effective for annual periods beginning on or after 1 January 2016.

**4 CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION OF UNCERTAINTY**

The preparation of the condensed interim financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expenses. Actual results may differ from these estimates.

In preparing these condensed interim financial statements, the significant judgments made by management in applying the Company's accounting policies and the key sources of estimation of uncertainty were the same as those that were applied to the reissued financial statements as at and for the year ended 31 December 2014.

7 FAIR VALUES OF FINANCIAL INSTRUMENTS

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or the most advantageous) market between market participants at the measurement date under current market conditions regardless of whether that price is directly observable or estimated using another valuation technique. The fair values of recognised financial instruments are not significantly different from the carrying values included in the interim condensed financial statements. The estimated fair values of financial instruments are based on quoted market prices, when available. The fair values of these investments are disclosed below.

*Determination of fair value and fair value hierarchy*

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments:

Level 1: quoted prices in active markets for identical instrument (i.e., without modification or repacking);

Level 2: quoted prices in active markets for similar assets and liabilities or other valuation techniques for which all significant inputs are based on observable market data; and

Level 3: valuation techniques for which any significant input is not based on observable market data.

The unlisted securities of SR 1.92 million (2014: SR 1.92 million), held as part of Company's insurance operations, were stated at cost in the absence of active markets or other means of reliably measuring their fair value.

For financial instruments that are recognised at fair value on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

During the twelve month period ended 31 December 2015, there were no transfers between Level 1 and Level 2 fair value measurements, and no transfers into or out of Level 3 fair value measurements. The net change in the fair value of AFS investments amounting to a loss of SR 900,879 (2014: SR 593,671) has been recorded in the interim statement of comprehensive income – shareholders' operations.
